

Real time, non-sedated, visualization of the esophagus in just minutes... in your office!

NAVICAM[®] T CAPSULE/TETHER

Non-Sedated, Low-Risk Option

Offers a safe alternative to conventional endoscopy, eliminating sedation, reducing procedure-related risks while minimizing patient discomfort.

Hepatology Applications

Enables early detection and surveillance of high-risk esophageal varices in patients with chronic liver disease.

ENT Visualization

Provides direct, real-time views of the laryngopharynx for evaluation and surveillance of upper airway and swallowing disorders.

Broader Access to Care

Simplifies diagnostic workflows, expanding endoscopic evaluation to patients who may not tolerate traditional procedures.

NAVICAM[®] XST

44% smaller in volume

Smaller Capsule, Bigger Impact

44% smaller by volume than our standard small bowel capsule, yet delivering the same exceptional image quality and diagnostic reliability. Designed with patient comfort in mind, NaviCam XS is easier to swallow and ideal for those with anatomical challenges, while maintaining the advanced technology you expect from AnX Robotica.

All Small Bowel Capsule Systems are not created equal

NaviCam® Small Bowel Value to the Stakeholders

Physician

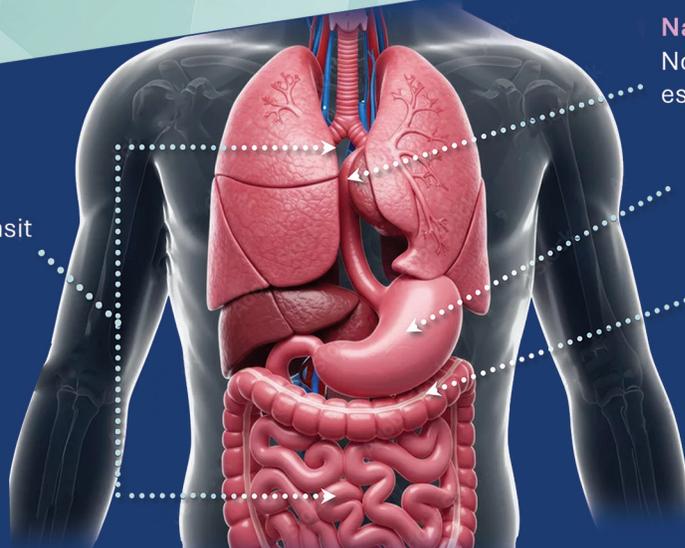

- Real-time visualization without sedation
- Safe, controlled evaluation of the esophagus and laryngopharynx
- Non-invasive alternative to conventional endoscopy
- Expanded surveillance for high-risk patients

Clinical Staff

- Simplified workflow with tethered control
- Lightweight, patient-friendly hardware
- Comfortable capsule options to fit a broad range of patients

Practice Manager

- Reduces sedation-related costs and risk
- Expands access to patients unwilling or unable to undergo traditional endoscopy
- Differentiates the practice with innovative, patient-friendly technology
- Creates new opportunities for patient retention and referral growth

MotiliCap
Whole gut transit

NaviCam Capsule/Tether
Non-sedated, real-time esophageal visualization

NaviCam Magnetically Controlled Capsule Endoscopy
Non-invasive, non-sedated stomach visualization

NaviCam Small Bowel with ProScan
Complete visualization with AI powered lesion detection

NaviCam GI Diagnostic Platform
