

NAVI CONNECT

Cloud Connectivity for the NaviCam[®] SB System

Connected Workflow. Intelligent Review.
Better Patient Care.

NAVICAM[®] **SB** System – Small Bowel Capsule Endoscopy

NAVI CONNECT

Value Proposition

Transforming Capsule Endoscopy through Cloud Connectivity.

By combining the proven performance of the NaviCam® Small Bowel System with the AI-powered efficiency of ProScan™, NAVI CONNECT provides a centralized platform for secure study management, rapid image review, and seamless clinical collaboration.

Feature Highlights

Secure Cloud-Based Access

- Access studies from virtually anywhere with an internet connection
- Centralized storage and management of capsule endoscopy exams
- Secure, HIPAA-compliant architecture designed to protect patient data

Powered by ProScan™ AI

- Leverages advanced AI-assisted lesion detection
- Prioritizes clinically relevant findings for faster review
- Helps improve workflow efficiency and physician productivity

Multi-Site Connectivity

- Ideal for health systems, large GI practices, and reading centers
- Standardized workflows across multiple facilities
- Simplified study sharing and collaboration

Enhanced Operational Efficiency

- Reduce dependence on local servers and IT infrastructure
- Automatic software updates and system enhancements
- Scalable platform designed to grow with your practice
